

## SPECS TO CURE DRUNKENNESS

Eye Is Basis for Men's  
Thirst for Liquor.

Drink Habit Not Due to  
Corrupt and Depraved  
Appetite.

Chicago Doctor Has Discovered a Cure  
That Lays All Others in the  
Shade.

CHICAGO, Oct. 21.—That drunkenness can be cured by wearing the proper kind of eye-glasses is the newest theory of students of the disease. This does not mean that a patient in an intoxicated condition can be supplied with unfoolish glasses guaranteed to correct the evil effects of superinduced double vision. Dr. Chalmers Prentice, who has just returned from the annual meeting of the Minnesota State optometrists, is responsible for the theory.

All Due to the Eye.  
He says the liquor habit all on to the eye. It will be a great relief, he believes, to many to know that this organ is at the bottom of their thirst and not a corrupt and depraved appetite. The physician says that the nerve centers controlling the mechanical movements of the eye comprise fully one-third of the brain structure and that the natural position of the eye in a state of rest is that of distant vision.

Indoor Workers Subject to Habit.  
Any work, he contends, that increases the use of the eye indoors, or for near vision and close application makes the labor of focusing so great that the brain centers rob the other portions of the body of their just proportion of energy and induce a condition of nervous irritability which is especially evidenced by a craving for alcohol.

In Service of Red Eyed King.  
It is easily observable that politicians, horsemen, automobilists, and other outdoor workers whose employment requires constant effort in distant vision, are delighted to wear the glasses. On the other hand, it is saddening to note, he says, the number of college professors, lawyers, and even newspaper men, who are bound hand and foot in the service of the red-eyed king.

Nervous Irritability Cause.  
Dr. Prentice goes further than this, saying that the nervous irritability is evidenced by a craving for alcohol. He says that this condition actually has much to do with creating the drink appetite. He says that persons who earn their daily bread by calling requiring close range of vision and who find but little time for open-air tonic, should wear fog and prism adjusted to the vision required by their employment.

Glasses May Produce Drunkenness.  
The physician does not make it clear whether he means that an imitation of the rosy cheeks and colors seen through the foggy atmosphere of tobacco can be produced artificially. If the eye can be fooled in this way, some students of the theory maintain that perhaps the habit will cease to grieve after the real thing.

QUESTION OF CITIZENSHIP.

Federal Judge in San Francisco De-  
clares That Chinaman May Land.

SAN FRANCISCO, Oct. 21.—A question of citizenship is before United States District Judge De Haven. Lim Fong, a Chinese born in Oakland some twenty years ago, claimed citizenship in the United States after having spent his life from the age of four to his majority in China. The Government asserted that owing to his long residence abroad he had forfeited all right to return to America.

Commissioner Heacock recommended his landing some days ago and Judge De Haven confirmed his recommendation.

The case will be taken, on the part of the Government, to the Circuit Court of Appeals.

Chamberlain's Cough Remedy.

No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly, and very few are willing to take any other after having once used it. For sale by all leading druggists.

**A BOON TO SICK WOMEN**

After four years of vain endeavor to regain her health by taking other medicines, Miss Beatrice Wood was made a perfectly well woman by taking Wine of Cardui, the most successful menstrual regulator and woman's tonic known to the science of medicine.

She took Wine of Cardui, and that is what we advise you to do.

Will you follow her example and be a well woman?

We could show you letters from 10,000 other women who praise Wine of Cardui as she praises it.

**WINE OF CARDUI**

No. 14 Main St., PENSACOLA, FLA., Nov. 20, 1908.

Wine of Cardui, through personal experience, and found it so excellent that I feel it due to you to when the periods occurred I was unable to be up and had to stay in bed for a day or two. Nothing I had tried had helped me until I used Wine of Cardui. It proved to be just what I needed. Within two months the serious pain had disappeared, my headaches were less frequent and not so severe and felt very much better. I have enjoyed the finest health now for eighteen months. I am very regular and have no more pains and it is a boon to sick women, and most heartily do I recommend it to those suffering as I did, feeling sure that they will be cured if they will let other medicines alone and take Wine of Cardui.
